

## Nagoya University's Graduate Schools and International Programs for Students

Since entering the 21st century, 13 Japanese researchers have received a Nobel Prize. Among these, six are graduates of or have been affiliated with Nagoya University as faculty members during their career. Here we showcase Nagoya University's 14 graduate schools and their International Programs for students, aiming to foster international academic exchange and offering students the opportunities to receive Nagoya University's renowned academic programs in English.

- **Graduate School of Medicine**  
G30 Graduate Program
  - Biological and Bioagricultural Sciences (Master's)
  - Medical Science (Doctoral)

- **Graduate School of Pharmaceutical Sciences**

- **Graduate School of Engineering**  
Note: Graduate School of Engineering will be reorganized in April 2017  
G30 Graduate Program
  - Automotive Engineering (Master's)
  - Civil and Environmental Engineering (Master's/Doctoral)
  - Chemistry (Master's/Doctoral)
 International Graduate Program
  - Nagoya University Global Environmental Leaders Program (NUGELP)

The Graduate School of Engineering has turned out two Nobel laureates: Prof. Isamu Akasaki (Physics in 2014) and Prof. Hiroshi Amano (Physics in 2014).

- **Graduate School of Bioagricultural Sciences**  
G30 Graduate Program
  - Biological and Bioagricultural Sciences (Master's/Doctoral)

- **Graduate School of Science**  
G30 Graduate Program
  - Physics and Mathematics (Master's/Doctoral)
  - Chemistry (Master's/Doctoral)
  - Biological and Bioagricultural Sciences (Master's/Doctoral)

- **Graduate School of International Development**  
Note: Department of International Communication will move to Graduate School of Humanities in April 2017.  
International Graduate Program
  - International Development and Cooperation Course

The Graduate School of Science has turned out four Nobel laureates: Prof. Ryoji Noyori (Chemistry in 2001), Prof. Makoto Kobayashi (Physics in 2008), Prof. Toshihide Maskawa (Physics in 2008), and Prof. Osamu Shimomura (Chemistry in 2008).

- **Graduate School of Environmental Studies**  
International Graduate Program
  - Nagoya University Global Environmental Leaders Program (NUGELP)

- **Graduate School of Information Science**

- **Graduate School of Mathematics**  
G30 Graduate Program
  - Physics and Mathematics (Master's/Doctoral)

- **Graduate School of Letters**  
Note: Graduate School of Letters will move to Graduate School of Humanities in April 2017.  
G30 Graduate Program
  - Japan-in-Asia Cultural Studies (Master's)

- **Graduate School of Education & Human Development**

- **Graduate School of Languages and Cultures**  
Note: Graduate School of Languages and Cultures will move to Graduate School of Humanities in April 2017.  
G30 Graduate Program
  - Comparative Studies of Language and Culture (Master's/Doctoral)

- **Graduate School of Law**  
International Graduate Program
  - LL.M. and LL.D. (Comparative Law) Programs in Law and Political Science
  - Department of the Combined Graduate Program in Law and Political Science

- **Graduate School of Economics**  
G30 Graduate Program
  - Economics and Business Administration (Master's)

Academic exchange and short-term programs Nagoya University provides, such as:

- Nagoya University Program for Academic Exchange (NUPACE)
- Nagoya University Short-Term Japanese Language Program (NUSTEP)
- Nagoya University Summer Intensive Program (NUSIP)
