

Nagoya University's Research Institutes and Centers

Nagoya University maintains a free and vibrant academic culture with the mission of contributing to the well-being and happiness of humankind through research and education in all aspects of human beings, society, and nature. Specifically, Nagoya University has progressed in the "Program for Promoting the Enhancement of Research Universities" since the fiscal year 2013, selected as one of the top 4 among the 22 institutions and organizations in Japan, to produce research results of scholastic distinction on the international stage.

● **International Cooperation Center for Agricultural Education** composes two sub-divisions, Project Development and Network Development to be a leading center for international cooperation in capacity development to contribute to overcoming problems in agricultural and rural development in developing countries.

○ Graduate School of Bioagricultural Sciences

● **Institute of Transformative Bio-Molecules (ITbM)** provides new interdisciplinary fields of Chemistry and Biology in the "Mix-Lab" to create "transformative bio-molecules" that will dramatically change the way we do science and the way we live.

○ Graduate School of Science

○ Graduate School of International Development

● **Disaster Mitigation Research Center** strives to conduct research, disseminate information, and raise awareness of the challenges of disaster mitigation, establishing two divisions of Social Cooperation Division and Research Cooperation Division, through cooperation between various fields, industry-academia-government sectors, regions, and universities.

○ Graduate School of Letters

○ Graduate School of Education & Human Development

○ Graduate School of Languages and Cultures

○ Graduate School of Medicine

Life

○ Graduate School of Law

● **The Nagoya University Museum** provides Public Understanding through exhibitions and interactional activities as a public window onto Nagoya University, enhanced by international scientific exchanges among university and other museums.

○ Graduate School of Economics

● **Nagoya University Library** consists of Central Library, Medical Library and more than 20 Department Libraries and holds over 3,270,000 books in total. E-journals and databases are also available online.

For further details, please visit the Institute's or Center's own website.

○ Graduate School of Pharmaceutical Sciences

● **Institute of Innovation for Future Society** was established as a diverse and individualized social innovation hub under MEXT COI STREAM program. It aims to realize "the Mobility Society for the Elderly which leads to an Active and Joyful Lifestyle," approached by three research areas: Traffic Environment, Vehicle Technology, and Society and Human Factors.

○ Graduate School of Engineering

● **Green Mobility Research Institute (GREMO)** advances world-level research in the fields of Environment, Energy, Safety, Security, Robotics, and Control Systems to design and develop ideal automobiles by promoting collaboration with organizations outside the university environment, and through personnel development.

● **National Composites Center (NCC)** advances both Composite Technologies based on carbon fiber and contribution to local industries and communities by transferring the research achievements beyond the NCC itself.

○ Graduate School of Environmental Studies

○ Graduate School of Information Science

○ Graduate School of Mathematics
